

SIMPLE & EFFICIENT

The Dazz features a compact fixture designed to quickly and easily integrate into existing panel systems using a slide bar mount.

The durable housing features a hinged service tray that snaps on and off for quick installation and access to the energy saving T5 fluorescent light tubes. The shatter resistant, clear acrylic diffuser features a prismatic lens designed to provide uniform illumination across the worksurface. An integrated electronic ballast provides quiet operation with no flickering and instant on/off control of the light.

Dazz comes with a 5 year warranty on the fixture and will provide years of simple, efficient lighting.
