

STREAMLINED AND EXPANDABLE

The Willow monitor mount features a streamlined design ideal for supporting lightweight monitors weighing 1-14 pounds. A high performance spring combined with the parallel linkage design keeps monitors perfectly balanced while providing easy vertical adjustment.

Willow is available with a C-Clamp or Grommet mount and can be easily expanded to accommodate a second monitor with the addition of our Dual or Dual-Wide conversion kits which can be purchased separately.

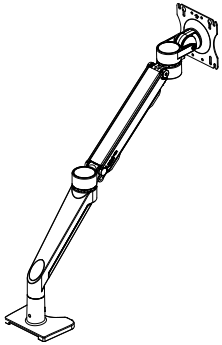

The Willow comes with a 10 year warranty and will provide years of dependable performance.

VESA quick release for easy installation.

Neatly stow cords under both arms.
