		Height	Model #
Bench Mount Kit	• Designed for mounting keyboard arms and tracks to benching systems or adjustable height workcenters	1.12"–1.5"	**BMK-1-B**
	• Use when support beams limit the availability of flat mounting surfaces	1.88"–2.25"	**BMK-2-B**
	• Attaches between underside of worksurface and keyboard arm		
	• Powder coated steel construction		
	• Fits all Workrite keyboard arms		
	• Installation hardware included		

Once you have selected the appropriate keyboard arm and track for the depth of your worksurface, simply measure the clearance required to drop the keyboard track below the supports of the workcenter.

Workrite Adjustable Height Workcenters
• BMK-1-B should be used for all installations of tracks greater than 17" on Workrite's Essentia, Sierra HX and Sierra HXL Electric frame sets
• BMK-1-B should also be used for all Sierra HXL crank installations, regardless of track length
• BMK-2-B used with Cascade frame sets

Benching Systems
• BMK-1-B can be used for all 1.12" to 1.5" clearance requirements
• BMK-2-B can be used for all 1.88" to 2.25" clearance requirements
