

## THE BEST WORKCENTERS START AT THE TOP

Workrite's laminated worksurfaces feature a wide variety of popular Wilsonart® high pressure decorative laminates and coordinated 3 mm edgeband. The core is constructed from 1.125" thick, 45 pound density industrial grade particleboard and is backed with high quality phenolic to ensure balanced panel construction and prevent warping over the life of the product.

Our worksurfaces are available in a wide variety of shapes and sizes with a 10 business day lead time for quantities of 10 or less, and are the perfect finishing touch for any of Workrite's height adjustable frame sets or bases.

They can also be used to refresh the look of your existing fixed height or adjustable height workcenters regardless of manufacturer.

*Workrite worksurfaces come in a variety of shapes and sizes.*

## HOW TO CONFIGURE YOUR WORKSURFACE

### Select a worksurface laminate & edgeband

Workrite's standard laminated worksurface program features 25 popular Wilsonart® laminates with coordinating 3 mm edgeband options. For larger, more accurate swatches of available laminates, and suggested laminate to edgeband pairings, please refer to the Materials & Finishes tab of the Workrite binder.
